Dear Potential GLWA Contractors:

The Great Lakes Water Authority (GLWA) has prepared a listing of preliminary construction and consultant contracts that it anticipates releasing through October of 2017.

Questions concerning the availability of this report should be directed to Ms. Joan Byrne of GLWA Procurement at [Joan.Byrne@glwater.org](mailto:Joan.Byrne@glwater.org). The report is also available on the website at <http://www.glwater.org>.

Sincerely,

Daniel Edwards

# Construction & Contracted Services Solicitations

Projected through October 1, 2017

## PROCUREMENT GROUP

The list below identifies construction, design/build, and consultant contracts that the Great Lakes Water Authority (GLWA) has been identified for future procurement. The awarding of GLWA contracts is based, in part, upon requests for proposals (RFPs) and the open competitive bidding process. GLWA reserves the right to modify, cancel, delete or postpone any construction or consultant project listed herein, if it is deemed to be in the GLWA's best interest. Vendors engaged or contracted to prepare a scope of work or solicitation shall be precluded from bidding on the underlying goods or services sought by GLWA. Potential vendors are invited to review the GLWA Procurement Policy at <http://www.glwater.org/doing-business-with-glwa/policy-procedures/>.

The below Request for Bids (RFBs) or RFPs will be available on the GLWA website, <http://www.glwater.org>; however, there is no provision to accept submissions on the <http://www.glwater.org> website at this time.

Vendors interested in submitting a response to GLWA's solicitations are required to be registered in the Michigan Inter-governmental Trade Network (MITN). All solicitation information and documents shall be available to vendors registered in the MITN system. If you are not currently registered, you must register to obtain documents and submit a response. Please use the following address to begin registration: <http://www.mitn.info/>.

**Project status** in the table below is identified as:
