

GLWA-CS-015
Asset/Property Valuation Services

Bulletin No. 4

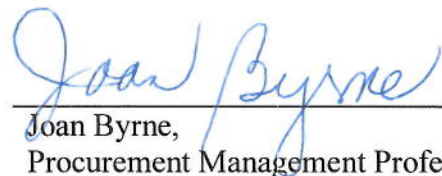

March 29, 2015

On behalf of the Great Lakes Water Authority (GLWA), we are pleased to announce that the following firms have been short-listed and are being moved forward in the evaluation process:

- Carollo Engineers, Inc.
- Duff & Phelps, LLC

Prior to making a final recommendation and prior to entering into contract negotiations with one firm, we will be moving forward with scheduling oral interviews for the two named short-listed firms. A separate email regarding those interviews will be sent directly to the firms.

To all other firms: Thank you for the effort you made by submitting your proposal. We trust there will be future opportunities for you to assist GLWA in carrying out its responsibilities of serving our whole sale customers within the region.

Joan Byrne,
Procurement Management Professional
Construction and Contract Services
