**INFORMATION FOR BIDDERS**

---

---

**1.0 - SUBSURFACE CONDITIONS**

---

1.1. The reports of explorations and tests of subsurface conditions itemized immediately below have been used by the **Engineer** in the preparation of the Bidding Documents. Those reports are not part of the Bidding Documents. If those reports are not attached to this section, they are available for purchase (\$0.00 per copy) from **GLWA**.

N/A

1.1.1. Information or data contained in those reports that may be properly considered authorized technical data concerning subsurface conditions include (NOTE: All other information or data excluded from the list below represent non-technical information or data, interpretations or opinions):

N/A

1.2. The reports of explorations and tests of subsurface conditions itemized immediately below have not been used by the **Engineer** in the preparation of the Bidding documents. Those reports are available at the office of the **GLWA** for review or purchase. Neither the **GLWA** nor **Engineer** warrants that this list identifies all existing relevant documents.

N/A

---

**2.0 - OTHER PHYSICAL CONDITIONS**

---

2.1. The Drawings and technical Specifications and those drawings itemized immediately below contain information or data that have been used by the **Engineer** in the preparation of the Bidding Documents, and that may be properly considered authorized technical data concerning physical conditions of existing surface and subsurface facilities.

N/A

2.2. The reference documents itemized immediately below have not been used by the **Engineer** in the preparation of the Bidding Documents, and are available at the office of the **GLWA** for review or purchase. Information and data contained in those reference documents, including, but not limited to dimensions, locations and conditions of existing surface and subsurface structures, roadways, piping, raceways, equipment,

etc. may not accurately or reliably reflect actual conditions. Neither the **GLWA** nor **Engineer** warrants that this list identifies all existing relevant documents.

N/A

---

**3.0 - UNDERGROUND UTILITIES**

---

3.1. Information or data about physical conditions of Underground Utilities, that have been used by the **Engineer** in the preparation of the Bidding Documents, is shown or indicated in the Drawings and technical Specifications and those Underground Utility drawings itemized immediately below.

N/A

---

**4.0 - PERMITS, APPROVALS, LICENSES AND FEES**

---

4.1. The **GLWA** has secured or will secure the following permits, approvals and licenses and has paid or will pay any associated charges and fees.

- (i) United States Army Corps of Engineers (USACE) Permit
- (ii) Michigan Department of Environmental Quality (MDEQ) Permit

4.2. Copies of the permits, approvals, licenses itemized in paragraph 4.1 and corresponding fee receipts, as appropriate, are either attached to this Section 00210 or are available for purchase (\$ 0.00 per copy) from **GLWA**.

---

**5.0 - SEQUENCING REQUIREMENTS**

---

5.1. The technical Specifications, including, but not limited to the General Requirements, provide information and data on sequences of Work and other constructability and operability criteria, if any, governing the selection of Work sequences.

5.2. Each Bidder shall be responsible for any conclusions or interpretations the Bidder makes related to the selection of sequences and means and methods, based on the technical data made available, or those additional examinations, explorations or studies made or obtained by that Bidder.

**END OF SECTION**
