**GLWA WORKING TO ISOLATE BREAK ON 24-INCH WATER TRANSMISSION MAIN
ON BASELINE ROAD BETWEEN NOVI STREET AND OAKLAND AVENUE
IN NORTHVILLE**

- *Break occurred at approximately 3:30 a.m. on Friday, January 26, 2024*
- *Field Service crews dispatched to isolate break and determine next steps*

DETROIT – At approximately 3:30 a.m. today, the Great Lakes Water Authority (GLWA) discovered a break on a 24-inch water transmission main on Baseline Road between Novi Street and Oakland Avenue in the city of Northville.

Field Service crews are on-site working to isolate the break in order to assess the situation and begin planning for repair of the main.

More information will be shared as it becomes available.

About the Great Lakes Water Authority (GLWA)

The Great Lakes Water Authority (GLWA) is the provider-of-choice for drinking water services to nearly 40 percent, and efficient and effective wastewater services to nearly 30 percent, of Michigan's population. With the Great Lakes as source water, GLWA is uniquely positioned to provide those it serves with water of unquestionable quality. GLWA also has the capacity to extend its services beyond its 88 member partner communities. As part of its commitment to water affordability, the Authority offers a Water Residential Assistance Program to assist low-income households in participating member communities throughout the system. GLWA's board includes one representative each from Oakland, Macomb, and Wayne counties, two representatives from the city of Detroit, and one appointed by the Michigan governor to represent member partner communities outside of the tri-county area.
