**GLWA ASSESSING BREAK ON 42-INCH WATER TRANSMISSION MAIN ON  
14 MILE ROAD AFFECTING COMMERCE, WALLED LAKE, WIXOM AND PARTS OF NOVI**

DETROIT – The Great Lakes Water Authority (GLWA) has discovered a break on a 42-inch water transmission main on 14 Mile Road (west of M5) that is affecting Commerce, Walled Lake, Wixom and parts of Novi. GLWA Field Service Crews are currently on site and beginning to isolate the main.

Water service is impacted for some residents in the surrounding area.

More information will be shared as it becomes available with an update to follow at 1pm.

**About the Great Lakes Water Authority (GLWA)**

The Great Lakes Water Authority (GLWA) is the provider-of-choice for drinking water services to nearly 40 percent, and efficient and effective wastewater services to nearly 30 percent, of Michigan's population. With the Great Lakes as source water, GLWA is uniquely positioned to provide those it serves with water of unquestionable quality. GLWA also has the capacity to extend its services beyond its 88 member partner communities. As part of its commitment to water affordability, the Authority offers a Water Residential Assistance Program to assist low-income households in participating member communities throughout the system. GLWA's board includes one representative each from Oakland, Macomb, and Wayne counties, two representatives from the city of Detroit, and one appointed by the Michigan governor to represent member partner communities outside of the tri-county area.
